MAKE IT WONDERFUL

FRANKE

CREATE SOMETHING Wonderful IN YOUR KITCHEN

At Franke, we make the things that create wonderful kitchens. Sinks that stand out. Appeal. Taps made to turn heads. Worktops that take design to another level. Cooker hoods that blend in; others that make a bold statement.

But making something wonderful takes time. And at Franke, we've been pushing the boundaries for over 100 years. Founded in 1911, we have constantly built upon a foundation of precision engineering combined with traditional craftsmanship.

Now, over 100 years later, those principles endure, while a focus on our customers' changing needs and lifestyles has helped us become the world's largest manufacturer of kitchen sinks.

Inspired by and reflecting current and upcoming trends, this brochure features highlights from the latest Franke range. Alongside these products, you'll find advice on colours, textures and materials to inspire you to create exactly the look you're looking for.
